

Join the TSC Professionals Directory

Tuberous Sclerosis Australia believes it is important that individuals with TSC have access to health professionals that **have experience in managing Tuberous Sclerosis** and have made a commitment to stay **up to date with best practice in the diagnosis, surveillance and management** of TSC.

The directory is a listing of health professionals that have made this commitment and may be helpful when:

- A person with TSC is seeking a second opinion;
- A health professional is looking for expert advice to assist them in caring for a person with TSC;
- A person with TSC is looking for a new health professional because they are moving area or transitioning from paediatric to adult services.

The directory is not published. It is used by TSA staff and volunteers to respond to enquiries from TSC affected individuals, their carers and their primary care doctors.

Contact Clare Stuart (clare@tsa.org.au, 0410 685 181) for further information on the TSC Professionals Directory.

Yes, I want to join the TSC Professionals Directory

Please fill in the details below. Alternatively, please provide your business card.
