

# #Heroes4Sammy

Imagine being  
told your  
unborn baby  
could develop  
epilepsy, autism,  
Intellectual  
disability or  
kidney and  
brain tumours...

Sammy has TSC  
Tuberous Sclerosis  
Complex.

His family live with  
this uncertainty  
every day.

...imagine not knowing  
how many of these  
would become your  
child's reality.

**Be a hero for Sammy. Donate now.**
